

GORHAM CONNECTOR PROJECT

September 20, 2024

Thank you for reading this edition of the Gorham Connector Project Newsletter.

Outreach Update

On [Wednesday, September 18, 2024](#), Maine Turnpike Authority and MaineDOT participated in a workshop hosted by the Scarborough Town Council regarding the Gorham Connector Project.

The presentation materials that MTA and MaineDOT used for this workshop can be viewed by [clicking here](#).

We are thankful for this opportunity to engage the local community and municipal stakeholders. We understand that the Gorham Connector Project will be discussed at the Scarborough Town Council meeting on Wednesday, October 2, and we look forward to continuing to work closely with our municipal partners.

Given Our team also anticipates sharing additional project information in the coming days as a follow-up to what we heard and questions that were asked at the September 18 meeting. We recognize that transparency and outreach are critical needs - and are therefore key components of this project as we reset and conduct additional analysis.

Get Involved

We appreciate your engagement and feedback! It helps us improve the project.

If you have suggestions for future content, please submit a comment and let us know!

To share your feedback, please use the [MTA comment form](#). Public feedback will be reviewed by the Gorham Connector Project Team and considered by the MTA Board before making decisions about the Gorham Connector.

The Gorham Connector is a proposed new toll road that would link the Maine Turnpike at Exit 45 to the Gorham Bypass off Route 114 in Gorham. To learn more about the project, please check out the links at the bottom of this email.
