

2022 CONSTRUCTION PROJECT

Emergency Vehicle Ramps, Littlefield Road, Wells

Project Highlights

- \$550,000 project
- Awarded to RJ Grondin & Sons from Gorham, ME
- Construction of new northbound and southbound EVRs
- Closure of the existing northbound EVR
- Clearing of area occurred in May 2022
- Ramp construction anticipated to occur in July-August
- Project anticipated to be complete by fall of 2022

This project includes the construction of new Emergency Vehicle Ramps (EVR) at the Littlefield Road Underpass and the closure of the existing northbound ramp. The work is anticipated to be completed this fall.

As part of a separate project, repairs will be made to the Littlefield Road Bridge that crosses the Turnpike mainline at mile 17.3 in Wells.

The repair work includes pavement replacement, approach work and paving, deck expansion joint repairs and utility conduit hanger replacements. This work is scheduled to occur in the fall of 2022 or during the 2023 construction season.
